MIGRATORY
SPECIES**

UNEP/CMS/Resolution 12.12 (Rev.COP13)

Original: English

ACTION PLANS FOR BIRDS

Adopted by the Conference of the Parties at its 13th Meeting (Gandhinagar, February 2020)

Recalling Resolution 11.14¹ *Programme of Work for Migratory Birds and Flyways*, which recommends the development, adoption and implementation of species action plans for priority species in line with CMS priorities for Concerted and Cooperative Action, including the Yellow-breasted Bunting (*Emberiza aureola*), Baer's Pochard (*Aythya baeri*) and Far Eastern Curlew (*Numenius madagascariensis*),

Further recalling Resolution 11.17 (Rev.COP12) *Action Plan for Migratory Landbirds in the African-Eurasian Region*, which requests the Landbirds Working Group and the Scientific Council, with the support of the CMS Secretariat, to develop as an emerging issue Action Plans for the Yellow-breasted Bunting, European Turtle Dove (*Streptopelia turtur*) and European Roller (*Coracias garrulus*),

Noting that the Far Eastern Curlew was designated for Concerted Actions during 2015-2017 through Resolution 11.13² *Concerted and Cooperative Actions*,

Further noting that the Baer's Pochard Action Plan was adopted by the 8th Meeting of Partners of the East Asian-Australasian Flyway Partnership (EAAFP) in Japan in 2015; that the Far Eastern Curlew Action Plan was adopted by the 9th Meeting of Partners of EAAFP in Singapore in 2017, that the Dalmatian Pelican Action Plan was adopted by the 10th Meeting of Partners of EAAFP in Changjiang, China in 2018, and that the Action Plans for the White-headed Duck and for the Dalmatian Pelican were adopted by the 7th Session of the Meeting of the Parties to the Agreement on the Conservation of African-Eurasian Migratory Waterbirds (AEWA) in Durban, South Africa, in 2018,

Further noting the EuroSAP project, sponsored by the European Commission and coordinated by BirdLife International, under which the action plans for the European Turtle Dove, for the Dalmatian Pelican (*Pelecanus crispus*) and for the White-headed Duck (*Oxyura leucocephala*), were finalized in early 2018,

Additionally noting that the CMS Standing Committee adopted the action plans for the European Turtle Dove, White-headed Duck and Dalmatian Pelican at its 48th meeting,

Acknowledging the progress made in the development of the Action Plan for the Yellow-breasted Bunting, including the sound scientific and participatory process towards its successful finalization and implementation, and

Concerned about the conservation status of the Indian Skimmer (*Rynchops albicollis*) and its riverine and coastal habitats and noting the possible extinction of the species in South-East Asia as well as the severe population decline in South Asia detected in early 2020, and welcoming the initiative of the Governments of India and Bangladesh to develop a proposal for listing of the species under CMS

¹ Now consolidated in Resolution 12.11 *Flyways*

² Now consolidated in Resolution 12.28 *Concerted Actions*

as well as to lead on the development of an international single species action plan for the species together with other relevant Range States and stakeholders.

*The Conference of the Parties to the
Convention on the Conservation of Migratory Species of Wild Animals*

1. *Adopts* the following species action plans as submitted to COP12:
